****Do not delete anything below this line****

Thank you for your ISSN application. An ISSN was not assigned at this time for the following reason(s):

_____ Current ISSN Network policy requires that a complete issue that includes a minimum of five research articles must be published before a scholarly, open-access journal can be considered for ISSN assignment. Articles in press are not considered published and are not taken into consideration for the five-article requirement

[International policy from the ISSN International Centre](#)

X Complete issues must also include:

- a statement naming the city and state where the offices of the publisher are located
- the name of the publisher (a person or organization)
- the names and contact information of Editorial Board members
- the name and contact information of the Editor-in-Chief
- instructions for authors including page charges

We reserve the right to verify the accuracy of this information.

NOTE: We cannot retain applications that are ineligible for an ISSN assignment. Please re-submit your application when you have met international requirements. If you wish, you may print ISSN Pending on your first issue.

We look forward to receiving your resubmitted application after you publish the first issue.

If you have any questions, please reply to this email.

APPL0004223
